, New York, Sist May. The Mail and Express London cable says:-During the Whitsuntide recess Salisbury has prepared a bill which provides for the reform of he House of Peers. This reform has been so long, so urgently cried for by the Liberals and Radicals, that the Premier's adoption of this policy spams as clear an imitation of Gladstonian principles as could possibly have been made. The object probably is to keep off more radical treatment and perhaps the total abolishment of the House of Lords, which is the pet theme with a considerable body of politicians.

The main points of Salisbury's scheme are the admission of life peers and the exclusion of black sheep of noble families. These two features would undoubtedly raise the character of the Lords and obtain for that house some of the respect which it used to command. Salisbury will introduce this bill next month. POST-CHEICE NOTICES.

When Correspondence has been mis-sent or delayed (both of which are liable to happen. occasionally) all that the addressee need do is to note on the cover, Sent to ---- , or Received at 7 p.m., or as the case may be, and forward it, - without any other writing whatever, to the Postmaster-General. This should be acted on the first time cause of complaint occurs; it is a mistake to let such matters pass for fear of giving trouble, a course which generally gives more trouble in the end.
